

Spain's leading trade fair for orthopaedics and geriatric care

27 – 29 November 2008
Madrid, IFEMA Recinto Ferial Juan Carlos I

In recent years healthcare has become a major factor in Europe's national economies. Spain's geriatric care sector is experiencing exceptional growth due to demographic factors, rapid technological progress and the new legislation governing the care of elderly and handicapped persons. Against this background PRO CARE España in combination with orto España – trade fair for orthopaedics and rehabilitation - will present the following range of exhibits:

orto España

In 2008 with
Congress

Orthopaedic appliances, prosthetic appliances, technical appliances, literature, training, footwear, machinery and materials for the production of orthopaedic appliances

PRO CARE España:

In 2008 with
Congress

Care, assistance, therapy, nutrition, clothing, furnishings, building installations, services, housekeeping, communication equipment, management, literature

PRO CARE España is well on the way to becoming Spain's leading trade show for the nursing care sector. In 2006 more than 160 companies presented their products and services at this joint platform featuring PRO CARE España and Orto España. Around 10,000 visitors tuned into the latest trends and ideas. Since the Spanish geriatric care sector is booming double digit growth is forecast for the coming years. PRO CARE España is the ideal platform for establishing new business contacts – and for reaping the benefits of strong market growth.
