

31 MARCH – 04 APRIL 2025

# QUANTUM POWER FOR THE FUTURE

WORLD. LEADING. INDUSTRYSHOW.

## HANNOVER MESSE 2025 MEET THE QT-ECOSYSTEM COOPERATIONS FOR THE FUTURE

Second-generation quantum technologies are revolutionizing industrial transformation by providing new analytical methods and computing capabilities with unprecedented speed, efficiency and precision for complex industrial challenges. This holds immense potential for use in application areas such as materials development, secure communication networks, higher AI performance and data storage, and more accurate sensing and measurement capabilities. HANNOVER MESSE 2025 offers the ideal global platform for cooperation between potential partners from industry and research with the group exhibit Quantum Technology.

Industry is constantly looking for more efficient and cost-effective materials and solutions to optimize planning processes along the production chain. In addition, supply management should reduce production costs wherever possible, thereby significantly increasing resource and energy efficiency. In the energy sector, the challenge is to increase the efficiency of the use of renewable energy sources. Information and communication security in companies and government institutions requires more robust encryption methods and tap-proof communication channels. And the automotive and aerospace industries urgently need more precise navigation and measurement systems. Do you have the right solutions?

Then present your latest innovations at the world's largest industry show - in front of 130,000 visitors, 20,000 of whom have a strong interest in the latest industrial solutions from the R&D sector! By participating in the group exhibit Quantum Technology, you will have access to over 4,000 industrial companies and over 3,800 participants with an explicit interest in innovative quantum technology solutions. Be part of the QT community right from the start and meet future cooperation potentials with industrial customers, start-ups and institutions on site.

**Let's build a new community together and start the quantum revolution!**

Please note that this is an example of a group booth. Subject to change without notice.

# IMPRESSIONS OF 2024

## Premium Package including services:

- 2 stand options: 9 m² and 12 m²
- Comprehensive equipment: e.g. printable stand walls, exhibition area
- Lounge area with catering (snacks and drinks)
- Organizational support by hostesses
- Basic cleaning, daily cleaning and waste disposal
- General security
- Technical connections: Electricity and WLAN
- Optional: presentation slot in forum program "Tech Transfer" at conference stage in Hall 2
- Digital marketing activities such as Visitor tickets and media service for optimized product and company profiles on the HANNOVER MESSE website

Participation Fee: 740 € / m²

\*add 426 € registration fee and German VAT

## Basic Package including services:

- 1 stand option: Demo Point
- Basic equipment: small stand incl. company graphics
- Lounge area with catering (snacks and drinks)
- Organizational support by hostesses
- Basic cleaning, daily cleaning and waste disposal
- General security
- Technical connections: Electricity and WLAN
- Optional: Presentation slot in forum program "Tech Transfer" at conference stage in Hall 2
- Digital marketing activities such as Visitor tickets and media service for optimized product and company profiles on the HANNOVER MESSE website

Participation Fee: 3.700 €

\*add 426 € registration fee and German VAT
