Ready for the future.

INTERSCHUTZ – Your operational centre for business and contacts

The **world's leading trade fair** for the fire and rescue services, civil protection, safety and security, which takes place in June 2020, will again prove to be **the most important international meeting-place** for manufacturers and users.

The next INTERSCHUTZ will be held under the lead theme “Teams, Tactics, Technology – Connected for Protection and Rescue”. This leading international trade fair draws attention to two crucial aspects: the use of innovative digital solutions and the increased collaboration of players and organizations.

Inspiration, business, people – join us in shaping the future at INTERSCHUTZ 2020!

New:

Civil protection in Hall 17 –
benefitting from an optimized
exhibition structure

As an exhibitor you will benefit from a steady flow of professional visitors. This is guaranteed by the use of Hall 17 as the centre for the civil protection sector, which provides a complete overview of manufacturers and suppliers, as well as special topics. The improved themed arrangement of displays at INTERSCHUTZ 2020 also means less footwork for visitors as it reduces the distances between the various displays and the talks and special events held in the Convention Center.

Special events:

Meeting and symposium

The Summit for the Rescue Services and Civil Protection offers an ideal opportunity for discussions, networking and a professional exchange between all the key players in your sector.

The two-day CP symposium is another source of valuable information and a chance to discuss important topical issues. In collaboration with Beta Verlag, publisher of Crisis Prevention, the INTERSCHUTZ symposium will focus on cross-border crisis prevention and disaster management, i.e. international cooperation in dealing with disasters and emergencies, including the challenges of extreme weather conditions.

We would like to thank our partners, sponsors and exhibitors:

Johanniter (the Order of St. John), German Red Cross, Arbeiter Samariter Bund, German Ministry for Civil Protection and Disaster Management, THW (Federal Agency for Technical Relief), DLRG (German Life Savers' Organization), @fire, the German Army

BUNDESWEHR

Be there. It's worth it!

The main reasons why you should exhibit:

- You can network with players in your business sector from across the world
- You can present your innovative products to the professional community
- You will meet buyers and decision-makers from the global marketplace
- You can take part in the dialogue about topical aspects of civil protection in special events and conferences

Register now!

To book the stand space and services that best suit your requirements, simply visit shop.interschutz.de.

Of course, our service team is also available to advise you in person. Simply contact us using the number printed on the back page.

Your area of expertise: **Civil protection**

Innovation: new technology and innovative concepts for problem-solving from all over the world

With displays of vehicles, technical systems and heavy equipment as well as live demonstrations, INTERSCHUTZ puts the focus on innovation, high-performing teams and technology and demonstrates how these components are linked to provide efficient civil protection.

Networking: All the key sectors at one venue

One of the chief benefits of the INTERSCHUTZ concept is that it shows how different sectors and skills across the spectrum are interconnected. It is the collaboration of teams and the use of technology and innovative products from different disciplines that ensures an optimal response to incidents. Digital technology and software play a key role, but it is the networking of teams that is crucial.

State of the art: Meeting new risks and challenges

The type, frequency and extent of major catastrophes is constantly changing. INTERSCHUTZ deals with the new emerging risks and challenges and offers appropriate solutions. Exhibitors enjoy a unique opportunity to demonstrate their innovative products and position themselves as innovators and influencers!

Meet influential representatives of your target groups:

- Municipal and government authorities, public bodies
- Fire services
- Rescue organizations
- Civil protection organizations

Overview of the keynote themes for your sector

- Vehicles
- Appliances and equipment for technical support and disaster control
- Appliances and equipment for preventing environmental hazards
- Facilities and equipment for emergency shelters and accommodation
- Equipment for lifting, winching, clearing, propping, cutting and rescue/extrication
- Temporary bridges, jetties and ramps
- Emergency communication technology and tracking systems
