

20 - 24 APRIL 2026

LIGHTWEIGHT CONSTRUCTION PAVILION

WORLD. LEADING. INDUSTRYSHOW.

HANNOVER
MESSE

THE PLATFORM FOR LIGHTWEIGHT & INNOVATIVE MATERIALS

Lightweight construction is a key technology. New lightweight materials, innovative construction methods and lightweight manufacturing technologies can save energy, material and CO₂. At the same time, the use of lightweight construction technologies offers the potential to make products more robust and efficient. From vehicles to machinery and equipment to the energy industry, intelligent lightweight systems are of great importance in all industrial sectors.

At the heart of the world's leading trade fair for the industry, the Lightweight Construction Pavilion offers a prominent presentation area for innovations in lightweight construction. For many years, HANNOVER MESSE has enjoyed a reputation among engineers, buyers, developers and scientists as the world's biggest stage for lightweight construction solutions. The result is an optimal match between exhibitors and visitors!

LIGHTWEIGHT CONSTRUCTION - A HIGHLIGHT OF THE NEW AREA "INDUSTRIAL SUPPLY & ENGINEERING SOLUTIONS"

- In the Lightweight Construction Pavilion, exhibitors will showcase energy- and material-efficient technologies through highlight exhibits, project studies and live demonstrations.
- Survey of trade visitors at HANNOVER MESSE show: Lightweighting is a key focus in the search for new supplier solutions.
- In the supplier industry, lightweight construction is both a trendsetter and a driver of innovation: the diversity of materials leads to lightweight Design. Surveys of trade visitors at HANNOVER MESSE show that lightweight construction is a response from the supplier industry.
- The pavilion is centrally located in the "Industrial Supply & Engineering Solutions" area in Hall 17.

CUSTOMISED PRESENTATION OF YOUR SOLUTIONS

WIDE RANGE OF PARTICIPATION OPTIONS

YOU HAVE THE CHOICE:

INDIVIDUAL PARTICIPATION

Stand out from the competition with an individual booth focusing on Lightweight construction. Register your booth space according to your wishes and requirements. We will be happy to support you in selecting your booth construction and provide you with further services and marketing support for a successful trade fair appearance.

GROUP EXHIBIT „LIGHTWEIGHT CONSTRUCTION PAVILION“

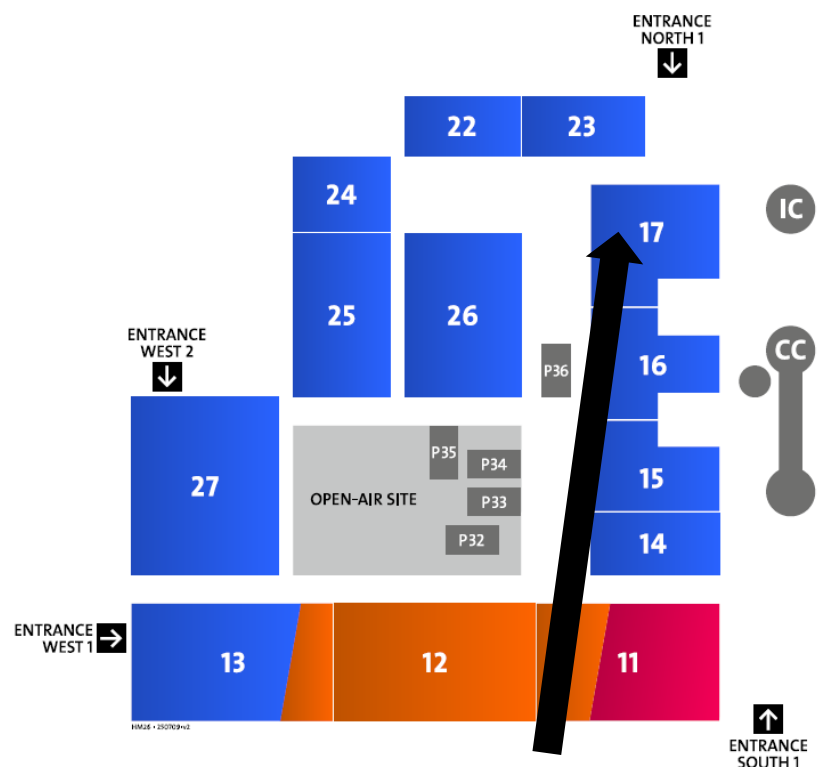

By participating in the “Lightweight Construction Pavilion”, you benefit from full-service packages for an uncomplicated trade fair appearance. Take advantage of the experience and various offers of our partners. Talk to us, we will be happy to put you in direct contact.

POSSIBLE PRESENTATION SLOT ON A STAGE

By participating in the “Lightweight Construction Pavilion”, you have the opportunity to get a presentation slot on a stage at HANNOVER MESSE 2026. You can also book masterclasses, roundtables and speed dating.

LIGHTWEIGHT CONSTRUCTION SOLUTIONS AREA

The Solutions Area provides a space for you to present your showcases and live demonstrations - in addition to your individual presence or participation in the pavilion. Introduce your solutions and projects to a professional audience.

Top location in the “Industrial Supply & Engineering Solutions” area in Hall 17
